

VLATKO STEFANOVSKI

Congratulations on 50 years on stage

"After so many years
of changing strings,
I have finally found
the right ones."

Vlatko Stefanovski

We are very proud that our INFELD string set ^{NO. IN109VS}
is his favorite set to play.

ABOUT OUR INFELD ELECTRIC GUITAR STRINGS

Our INFELD electric guitar strings are wrapped with superalloy wire. They deliver a bright, cutting tone – and measurably produce more power than other strings. Vlatko Stefanovski also appreciates their “punch” a lot. The guitar strings in our INFELD product line are perfect for heavy effect users, or for long signal paths where drop-off could be a problem.

To mark the occasion of his 50th stage anniversary, we dedicate this edition of our INFELD ^{NO.}IN109VS to the extraordinary guitarist Vlatko Stefanovski, who plays and loves these strings.

TECHNICAL DETAILS ABOUT OUR SET ^{NO.}IN109VS

Find the most important technical information in the tables below.
The tension measurement is based on a scale length of 25.5" (648 mm).

STRINGS IN THE SET INFELD (^{NO.}IN109VS)

	product ^{NO.}	core	outer material	diameter		tension	
				in	mm	lb	kg
e ¹	IP09	●	Carbon steel	.009	0.23	6.1	13.4
b	IP11	●	Carbon steel	.011	0.28	5.1	11.2
